EXPERIENCE

TCU - Neeley School of Business — Fort Worth, Texas
Graduate Research Assistant — July 2026 - Present
- Manage and validate investment-decision data for an ongoing AI-fintech research study involving approximately 185 participants across 6 experimental environments
- Clean, organize, and maintain experimental datasets using Microsoft Excel, ensuring consistent and accurate records for subsequent faculty-led statistical analysis
- Monitor daily trading sessions, identifying and troubleshooting participant issues and technical inconsistencies to minimize disruptions and maintain data collection integrity
- Coordinate participant records and experimental conditions across 6 treatment environments, supporting research into how AI-generated financial recommendations influence investment decisions

Whitsunday Sailing Club — Airlie Beach, Australia
Chef de Partie — Jan 2026 – May 2026
- Operated grill and fryer stations during high-volume service, delivering consistently high-quality dishes under tight time constraints
- Prepared menu items to exact specifications, maintaining quality and presentation standards throughout peak dinner service

University of Iowa – Business Consulting — Iowa City, Iowa
Student Consultant — Aug 2023 – Dec 2023
- Led a team of 4 students in a semester-long consulting engagement for an AI medical coding startup, guiding research and analysis to support the client's product strategy
- Advised the startup's founder on strategic priorities through a weekly consulting call, translating business needs into actionable project deliverables
- Completed 4 weekly deliverables, including market research, competitive analysis, and strategic recommendations, on schedule throughout the engagement
- Delegated research and analysis tasks among team members to meet weekly deadlines and drive progress
